New Vision, New Management: Progent GO!

Progent's team is pleased to announce the addition of new entry-level software to its range of management products.

Introducing **Progent GO**, a simple, fully hosted (Cloud) appointment and billing management solution designed for dentists who are looking for a tool that is easy to install and use.

Progent GO includes a basic appointment book and essential functionalities for billing and electronic transmission to insurers. Created from the latest technological innovations to the Progent platform, it offers a user-friendly, updated interface.

The welcome screen, which looks like a dash board, shows all the information of a selected file in the appointment book, giving you a quick "360-degree view" of a patient's file.

In addition to accepting transmissions to insurers, Progent GO includes RAMQ and Dentaide account statement reconciliation, for Net* ACDQ subscribers, key functionalities to increase the administrative efficiency of your clinic.

The screenshot displays the Progent GO software interface. On the left is an 'Agenda' view for Monday, February 22, 2016, with appointments for Dr. Roger Turcotte and Cynthia Ferland. The main area shows a 'Patient file' for M. Benoît Lafond, including contact information, date of birth (2006-13-08), person in charge (polythe Gregoire), relationship (Mother), H.I.N. (LAFB1308850809), insurer (GRANDPARENT SUN LIFE), and follow-up each (6 months). Below the patient file are sections for 'Appointments' and 'Follow-ups' with tables listing dates, times, and resources. At the bottom, there is a 'Treatments' section with a table for 'Treatment plans' showing dates, tooth numbers, surfaces, procedures, guides, and descriptions.

Since Progent GO operates in hosted mode (Cloud), dentists no longer have to worry about computer issues like managing backup copies. This is a huge advantage that lets you concentrate all your efforts on caring for your patients!

Designed together with dentists and the ACDQ, Progent GO makes use of Progent's expertise, which is why this innovative and robust solution is suited for all cutting-edge clinics.

Our team is proud to add this software to its portfolio of products. Thanks to its innovative technologies, Progent has some wonderful surprises in store for its current and future clients.

Come discover Progent GO at the ACDQ's stand (1600) during the next Journées dentaires internationales du Québec (JDIQ).

For more information about our services, **call one of our advisers at 1 800 650-0143**. Progent is a service of the ACDQ.
